CRITICAL AND CREATIVE THINKING

Syracuse University Shared Competencies (https://coursecatalog.syracuse.edu/shared-competencies/)

The Critical and Creative Thinking competency is one of Syracuse University's six institutional learning goals that enhance undergraduate education through an integrated learning approach. Undergraduate students develop competencies through their major degree courses, liberal arts requirements, and co-curricular experiences.

Students can expect to learn the knowledge and skills outlined in the following description and learning outcomes in each specified rubric (https://effectiveness.syr.edu/shared-competencies/shared-competencies-rubrics/): Exploration and synthesis of ideas, artifacts, issues, and events to inform and evaluate arguments, develop new insights, and produce creative work. Reflection on, and application of divergent modes of inquiry, analysis, and innovation to research, knowledge, and artistic creation.
